SOLARFLOW - SOLAR QUOTATION

Quotation date: 2026-11-05 | Lead reference: 0483d42e-0f8a-4173-ad9b-71ad3756c70e

Your 2.5 kW rooftop solar system

You pay INR 81,000.00 after estimated subsidy

Pays for itself in about 2.89 years | about 3,500 units generated per year

Recommended system

Selected option	RECOMMENDED
System capacity	2.5 kW
Estimated yearly generation	3,500 units
Sized by	CONSUMPTION

Cost breakdown

Price per kW	INR 60,000.00
Gross system cost	INR 1,50,000.00
Subsidy (estimate)	- INR 69,000.00
Net payable	**INR 81,000.00**

Savings

Electricity tariff assumed	INR 8.00 / unit
Estimated annual savings	INR 28,000.00
Estimated payback	2.89 years

Important assumptions

- Generation assumed at 1400 units per kW per year; roof space assumed at 100 sq ft per kW.
- Subsidy: This subsidy is an estimate based on an unverified rule. Actual eligibility and amount must be confirmed.
- Pricing, electricity tariff, generation and payback are estimates based on the rules effective on the quotation date.
